PolyMem[®] Tube Dressing

Shapes by PolyMem Tube dressings have been specifically developed with tube site needs in mind. Made with the same PolyMem formulation, these dressings continuously cleanse and balance moisture throughout the healing continuum, all while helping reduce skin breakdown and minimizing maceration.

Gastrostomy · Drainage · Feeding · Tracheostomy Tube Sites

Control inflammation
and edema

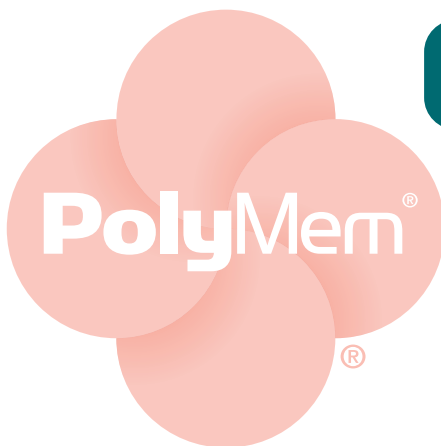

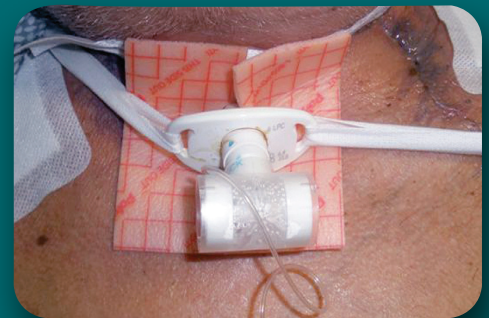

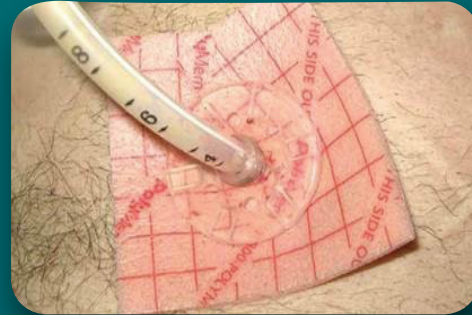

Reduce pain and
increase comfort

Decrease adherence of dried
secretions to the wound/stoma

Diminish skin breakdown

No fraying edges

Easier/faster
dressing changes

Heal Better Feel Better[®]
